

Online Courts and the Future of Justice

Author: Richard Susskind

₹999

ISBN: 9780198981770

Our court system is struggling. It is too costly to deliver justice for all but the few, too slow to satisfy those who can access it. Yet the values implicit in disputes being resolved in person, and in public, are fundamental to how we have imagined the fair resolution of disputes for centuries. Could justice be delivered online? The idea has excited and appalled in equal measure, promising to bring justice to all, threatening to strike at the heart of what we mean by justice.

Contents
