

Animal Cell Culture: A Practical Approach Third Edition

Author: John Masters

₹ 1,999/-

ISBN: 9780199637966

This new edition of Animal Cell Culture covers new or updated chapters on cell authentication, serum-free culture, apoptosis assays, FISH, genetic modification, scale-up, stem cell assays, 3-dimensional culture, tissue engineering and cytotoxicity assays. Detailed protocols for a wide variety of methods provide the core of each chapter, making new methodology easily accessible. Everyone working in biological and medical research, whether in academia or a commercial organization, practicing cell culture will benefit greatly from this book.

Table of Contents

Introduction to basic principles

Scaling-up of cell cultures

Cell line preservation and characterization

Development of serum-free media

Three dimension culture

Tissue engineering

Cytotoxicity and viability assays

Fluorescence in situ hybridization (FISH)

Genetic modification

Epithelial stem cell identification, isolation and culture

Apoptosis assays

About The Author

John Masters was born on October 26, 1914 in Calcutta, India. He was a writer, known for Bhowani Junction (1956), The Deceivers (1988) and ABC Close-Up! (1960). He died in 1983 in Santa Fe, New Mexico, USA.
