

An Atlas of Child Development-Typical and Atypical 1st Edition

Author: Asis Kumar Ghosh

₹2449

ISBN: 9788197761966

This book illustrates developmental trajectory with exceptional clarity & beautiful photographs and concise, clear text. This book focuses on the principles of motor learning, family centred care & environmental enrichment as the critical components of early management of Cerebral Palsy. Clinicians should use this book as a resource to guide them through assessments & help with programming ideas as the 'next step' on the developmental ladder is presented in logical sequence & with clear explanation.

Contents

Preface | Prologue | Foreword | Acknowledgements
